	AutoStart		●	●
	Water inlet (for dust suppression)		—	—
	Water nozzles		—	—
	Air inlet (for underwater/tunneling work)		●	●
	Oil drainage plug		—	—
	Pressure relief valve		●	●
	Dust wiper		●	●
	Replaceable wear protection plate		—	—

1) Weights apply to standard carriers only. Any variances must be agreed with Atlas Copco and/or the carrier manufacturer prior to attachment.

2) Hydraulic breaker with standard adapter and working tool

3) Important: EN ISO 3744 in accordance with directive 2000/14/EC. Full details of measurement are available in the Safety and Operating instruction of the product. It can be found on: www.acprintshop.com

● = standard ○ = optional

The automatic lubrication device is easy to access and provides optimum lubrication. The transparent cartridge can be changed quickly without need for special tools. When operating a hydraulic breaker it is essential to use the right grease. Our special hydraulic breaker chisel paste provides excellent properties in a wide temperature range.

ContiLube™ II micro
with 150g cartridge

ContiLube™ II
with 500g cartridge
